EXPERIENCE

Expert Agent, Frome

February 2012 – September 2014

Web Developer

- Coding websites for clients using a variety of coding languages and applications
- Liaising and communicating with clients to arrange website needs and desires using non-jargon to help explain things in terms a non-technical customer can understand
- Carrying out customisations within a timely manner to suit the customer
- Adding bespoke customisation to Joomla templates using jQuery and PHP
- Integrating Joomla system with the powering from the Expert Agent system
- Designing banners and customised elements in Photoshop & Illustrator and applying them to webpage

The Virtual Forge, Bath

August 2011 – February 2012

Junior Developer

- Translating PSD Designs into an interactive web user experience using HTML, CSS and JavaScript
- Using the jQuery & MooTools framework to add dynamic functionality to webpages
- Testing sites in multiple Mac and Windows browsers to give a cross platform look and feel for any user
- Coding registration and video portal pages using PHP and MySQL
- Adapting websites for mobile and tablets to enable users to keep the same interactivity of a desktop site
- Working closely with the designer to translate ideas from the client into a functional user experience
- Carrying out SEO and marketing techniques as well as integration of social media into the pages
- Working to strict deadlines to ensure launch of sites and pages are on target

PROFILE

As a highly motivated Web Developer with over 15 years coding experience, I am looking to resume my professional career in the workplace after dedicating the last 7 years to raising my family whilst free-lancing..

With good organization and communication skills, I am punctual, committed, and can be relied upon.

I enjoy challenges and learning new skills. I have worked on multiple freelance projects and use resources including Udemy and YouTube to keep my skills up to date and follow web trends.

I would now like to utilise my skills and experience I have gained to undertake a new challenge.

- Responsible for website updates and maintenance for clients
- Followed W3C standards to create rich websites for clients
- Used Wordpress and created templates to enable clients to update their own content
- Translated Adobe Photoshop PSD into Web Templates

INTERESTS

I love spending time with my family, we often game together and enjoy exploring our local beauty spots. I also enjoy keeping fit and ran the Cardiff Half Marathon for Mind Charity. I am an avid crocheter, mostly making amigurumi.

In my spare time, I enjoy learning new web languages and like to practice by creating projects for myself which can be seen on github.

I hold a full clean driving license.
